Operating Systems and Environment: Windows, Ubuntu, MacOS, RaspberryPi

EDUCATION

Bachelor of Engineering: Computer Engineering

Mahidol University International College, Thailand
2018 – 2022

High School Diploma

Assumption College, Thailand
2005 – 2017

High School Diploma

Liberty Charter School, USA
2015 – 2016

EXPERIENCE

Software Developer (Freelance)

2022 – Present

I am a passionate and experienced freelance web developer. With an understanding of both front-end and back-end technologies, with a strong foundation in server-side technologies and databases, I empower businesses to create seamless and efficient digital experiences for their users.

- **Tech Stack:** NestJS, TypeScript, MongoDB, Next.js, TailwindCSS, Ubuntu, Nginx, Raspberry Pi

Family Business Assistant

2021 – Present

Detail-oriented individual with a proven track record of providing essential support to a family business. Adept at multitasking and collaborating with family members and employees to ensure smooth business operations. Strong problem-solving skills and a quick learner, able to adapt to various tasks and responsibilities.

- **Tech Stack:** Vue.js Bootstrap 5, Node.js, MongoDB, Ubuntu, Nginx, Raspberry Pi

Algorithmic Trader and Expert Advisor Developer

2019 – Present

I have acquired a diverse skill set in this field, including expertise in trading analysis, robust risk management strategies, in-depth market research techniques, proficiency in algorithmic trading, and thorough knowledge of backtesting and optimization methods. These skills enable me to make well-informed decisions and optimize trading strategies effectively.

- **Tech Stack:** MQL5, Expert Advisor, TradingView, E-Finance, Investing, Aspen

Backend Developer Intern

2021 – 2021

Primo World Co., Ltd

My internship experience provided me with a deep understanding of backend development methodologies and real-world applications. It honed my problem solving skills, attention to detail, and ability to work within a collaborative team. I am now equipped with a valuable skill set that I am eager to apply in future projects, building upon the foundation laid during my internship.

- **Tech Stack:** NestJS, TypeScript, MySQL, PlantUML

Backend Developer for Both Website and LINE

2020 – 2021

I am an API developer specializing in managing complex student data systems. Leveraging GraphQL and MongoDB, I have designed a sophisticated API architecture to handle students' personal data, grades, courses taken, total credits, and remaining credits seamlessly.

- **Tech Stack:** Node.js, Express, MongoDB, GraphQL, FialogFlow, Line bot-sdk
